

Hydraulic Test Set

Category: Pneumatic, Hydraulic & Fluid Mechanics · Model reference: MZM-6006

SPECIFICATIONS

DESCRIPTION:

Pressure gauge kit and screw together test couplings provide accurate and efficient pressure control and monitoring of your hydraulic system while minimizing the introduction of contamination.

APPLICATIONS

Hydraulic and mineral based fluids - Agriculture - Construction - On-Highway – Industrial

FEATURES

Test system at working pressure - Accurate pressure control and system monitoring - Leak free connection before piston valve opens - simple and fast screw together connections - self-locking caps - Viton seals

KIT INCLUDES

- (2) 1/8" NPT Test Couplings
- (2) 1/4" NPT Test Couplings
- 7/17-20 UNF Test Coupling
- 9/16-20 UNF Test coupling
- 1/4" NPT Gauge adapters
- Union Adapters
- 60" Test hose Assemblies
- (-)30 in/Hg -30 psi Gauge
- 1,000 psi Gauge
- 7,500 psi Gauge
- Carrying case
